Coforge

Coforge – Engage with the Emerging

Coforge is a global digital services and solutions provider, that leverages emerging technologies and deep domain expertise to deliver real-world business impact for its clients.

A focus on select industries, a deep domain understanding of the underlying processes of those industries and partnerships with leading technology platforms, enables Coforge to be a trusted partner of its clients in their transformation initiatives. Coforge leads with its Product Engineering approach and leverages AI, Cloud, Data, Integration and Automation technologies to transform businesses into intelligent, high growth enterprises. Coforge has 30 global delivery centers and is present in 23 countries.

> We are somewhat atypical in our approach to solving business problems. We are specialists, not just engineers and technologists, who spend an inordinate amount of time understanding the targeted functional spaces that we focus on.
>
> **Sudhir Singh**
> **CEO, Coforge**

- Business Process Management

We are right sized

Big enough
We have scale, global footprint.

But not too big
Personal sponsorship by senior leaders and CEO to ensure seamless execution.

We transform enterprises with advanced AI capabilities

Coforge QUASAR Responsible AI

Quasar by Coforge is a comprehensive AI solution designed to ensure ethical, fair, and transparent AI applications. It addresses biases, enhances content safety through real-time harmful content detection, and offers robust tools for governance and compliance. Quasar is particularly impactful in the banking and finance sectors, where it personalizes customer experiences, combats fraud, and streamlines processes. Additionally, it accelerates content processing and excels in data extraction and analysis from diverse sources, making it a versatile tool for businesses aiming to leverage AI responsibly and effectively.
